Good afternoon,

Following up from our conversation at the team meeting today.

Warranties from Dave Dunn Roofing are as follows:

EPDM - 3 years Labor warranty, material warranty attached here. Glue is warranted as part of the material
Metal – 5 years Labor Warranty, Color is formulated to resist sun and weather damage, backed by a non-prorated finish warranty. <https://www.pac-clad.com/specs/color-availability-chart/>

Architectural Shingle – 10 year Labor warranty for GAF products only. Dave Dunn “owns” this warranty for 2 years then ownership is transferred to GAF for the next 8 years. This is beneficial because of the national name recognition of GAF.

Dave Dunn offers a 3 year preventive maintenance inspection – they will visit the home once a year to fully inspect the roof. The home owners need to coordinate these inspections. Following that 3 year period, we should be suggesting that our clients set up a service contract with Dunn’s

Thank you
Jon

ty

what's material warranty on the 060 EPDM we typically use?

thanks
clint
